

#### 1. IDENTIFICATION

#### Product Name

Recommended use of the chemical and restrictions on use Identified uses Restrictions on Use Company Identification

Customer Information Number Emergency Telephone Number Issue Date Supersedes Date Centurion<sup>™C6</sup> 3% Alcohol Resistant Aqueous Film Forming Foam Concentrate (AR-AFFF)

Firefighting Foam Concentrate See Section 15 National Foam 350 East Union Street West Chester, PA 19382 (610) 363-1400 Infotrac at (800) 535-5053 May 19, 2021 December 7, 2020

Safety Data Sheet prepared in accordance with OSHA's Hazard Communication Standard (29 CFR 1910.1200, the Canadian Hazardous Products Regulations (HPR) and the Globally Harmonized System of Classification and Labelling of Chemicals (GHS)

### 2. HAZARD IDENTIFICATION

#### Hazard Classification

Eye Damage/Irritation – Category 2A Skin Corrosion/Irritation - Category 2

#### **Label Elements**

Hazard Symbols

Signal Word: Warning

#### Hazard Statements

Causes serious eye irritation. Causes skin irritation.

#### Precautionary Statements Prevention

Wash hands thoroughly after handling. Wear eye protection, face protection and protective gloves.

#### Response

If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

If on skin: Wash with plenty of soap and water. If skin irritation or rash occurs: Get medical advice/attention. Take off contaminated clothing and wash it before reuse.

- Storage None
- **Disposal** None

#### 2. HAZARD IDENTIFICATION

#### Other Hazards

This product contains fluoroalkyl surfactants which are and include PFAS (per- or poly- fluoroalkyl substances) and is required to be disposed of by high temperature incineration. See Sections 13 and 15 for additional information.

#### Specific Concentration Limits

The values listed below represent the percentages of ingredients of unknown toxicity.

Acute oral toxicity	5 - 15%
Acute dermal toxicity	5 - 15%
Acute inhalation toxicity	5 - 15%
Acute aquatic toxicity	20 - 30%

#### 3. COMPOSITION/INFORMATION ON INGREDIENTS

This product is a mixture.

#### Component

Hexylene Glycol

**CAS Number** 107-41-5

Concentration\* 10 - 30%

\*Exact concentration withheld as trade secret.

This product contains fluoroalkyl surfactants which are and include PFAS (per- or poly- fluoroalkyl substances). See Sections 13 and 15 for additional information.

#### 4. FIRST- AID MEASURES

### **Description of necessary first-aid measures**

#### Eyes

Immediately flood the eye with plenty of water for at least 15 minutes, holding the eye open. Obtain medical attention if soreness or redness persists.

#### Skin

Wash skin thoroughly with soap and water. Obtain medical attention if irritation persists.

# Ingestion

Dilute by drinking large quantities of water and obtain medical attention.

#### Inhalation

Move victim to fresh air. Obtain medical attention immediately for any breathing difficulty.

#### Most important symptoms/effects, acute and delayed

Aside from the information found under Description of necessary first aid measures (above) and Indication of immediate medical attention and special treatment needed, no additional symptoms and effects are anticipated.

# Indication of immediate medical attention and special treatment needed Notes to Physicians

Treat symptomatically.

#### 5. **FIRE - FIGHTING MEASURES**

#### Suitable Extinguishing Media

This preparation is used as an extinguishing agent and therefore is not a problem when trying to control a fire. Use extinguishing agent appropriate to other materials involved.

#### Specific hazards arising from the chemical None known

#### **Special Protective Actions for Fire-Fighters**

Wear full protective clothing and self-contained breathing apparatus as appropriate for specific fire conditions.

#### **ACCIDENTAL RELEASE MEASURES** 6.

#### Personal precautions, protective equipment and emergency procedures

Wear appropriate protective clothing. Prevent skin and eye contact.

#### **Environmental Precautions**

Environmental exposure controls: Observe local/national regulations on emissions. Ensure all local/national regulations are observed.

Prevent foam concentrate or foam solution from entering ground water, surface water, or storm drains. Discharge and disposal of concentrate or foam solution should be made in accordance with federal, state, and local regulations.

#### Methods and materials for containment and cleaning up

Contain and absorb using appropriate inert material and transfer into suitable containers for recovery or disposal.

#### 7. HANDLING AND STORAGE

### Precautions for safe handling

Wear appropriate protective clothing. Prevent skin and eye contact.

#### Conditions for safe storage

Store in original containers between 35°F and 120°F (2°C and 49°C). Storage area should be: - cool dry - well ventilated - under cover - out of direct sunlight

#### 8. **EXPOSURE CONTROLS/PERSONAL PROTECTION**

#### **Control parameters**

Exposure limits are listed below, if they exist.

#### **Hexylene Glycol**

ACGIH TLVs: TWA 25 ppm (vapor fraction),

STEL 50 ppm (vapor fraction), 10 mg/m<sup>3</sup> (aerosol only, measured as inhalable fraction of the aerosol)

#### Appropriate engineering controls

Use with adequate ventilation. If this product is used in a pressurized system, there should be local procedures for the selection, training, inspection and maintenance of this equipment. When used in large volumes, use local exhaust ventilation.

#### 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

#### Individual protection measures Respiratory Protection

Wear respiratory protection if there is a risk of exposure to high vapor concentrations, aerosols or if applied to hot surfaces. A NIOSH approved full face respirator may be worn. The specific respirator selected must be based on the airborne concentration found in the workplace and must not exceed the working limits of the respirator.

#### **Skin Protection**

Rubber or PVC Gloves **Eye/Face Protection** Chemical goggles or safety glasses with side shields. **Body Protection** Normal work wear.

# 9. PHYSICAL AND CHEMICAL PROPERTIES

#### Appearance

Appearance	
Physical State	Liquid
Color	Colorless
Odor	Characteristic
Odor Threshold	No data available
рН	6.8
Relative Density	1.02
Boiling Range/Point (°C/F)	No data available
Melting Point (°C/F)	No data available
Flash Point (°C/F)	No data available
Vapor Pressure	No data available
Evaporation Rate (BuAc=1)	No data available
Solubility in Water	Soluble
Vapor Density (Air = 1)	Not applicable
VOC (%)	No data available
Partition coefficient (n-	No data available
octanol/water)	
Viscosity	No data available
Auto-ignition Temperature	Not applicable
Decomposition Temperature	No data available
Upper explosive limit	Not applicable
Lower explosive limit	Not applicable
Flammability (solid, gas)	Not applicable

# 10. STABILITY AND REACTIVITY

### Reactivity

No data available.

### Chemical Stability

Stable under normal conditions.

#### Possibility of hazardous reactions

Hazardous polymerization will not occur.

#### 10. STABILITY AND REACTIVITY

#### Conditions to Avoid

Contact with incompatible materials

#### Incompatible Materials

Water reactive materials - burning metals - electronically energized equipment

#### **Hazardous Decomposition Products**

Oxides of carbon - hydrofluoric acid - carbonyl difluoride

### 11. TOXICOLOGICAL INFORMATION

### **Acute Toxicity**

<u>Hexylene Glycol</u> Oral LD50 (rat) >2000 mg/kg Dermal LD50 (rabbit) >2000 mg/kg

#### Specific Target Organ Toxicity (STOT) – single exposure

Available data indicates this product is not expected to cause target organ effects after a single exposure.

#### Specific Target Organ Toxicity (STOT) – repeat exposure

Available data indicates this component not expected to cause target organ effects after repeated exposure.

# Serious Eye damage/Irritation

Hexylene Glycol: Causes serious eye irritation.

### Skin Corrosion/Irritation

Hexylene Glycol: Causes skin irritation.

#### **Respiratory or Skin Sensitization**

Available data indicates this product is not expected to cause skin sensitization.

#### Carcinogenicity

Not considered carcinogenic by NTP, IARC, and OSHA.

#### Germ Cell Mutagenicity

Available data indicates this product is is not expected to be mutagenic.

#### **Reproductive Toxicity**

Available data indicates this product is not expected to cause reproductive toxicity or birth defects.

#### Aspiration Hazard

Not an aspiration hazard.

### 12. ECOLOGICAL INFORMATION

### Ecotoxicity

No relevant studies identified.

#### **Mobility in soil** No relevant studies identified.

#### 12. ECOLOGICAL INFORMATION

#### Persistence/Degradability

No relevant studies identified.

# **Bioaccumulative Potential**

No relevant studies identified.

#### Other adverse effects

No relevant studies identified.

### 13. DISPOSAL CONSIDERATIONS

### **Disposal Methods**

This product contains PFAS (per- or poly- fluoroalkyl substances). Local requirements for waste disposal may be more restrictive or otherwise different from national regulations. Therefore, applicable local and state regulatory agencies should be contacted regarding disposal of waste foam concentrate or foam/foam solution.

**Concentrate** 

Prevent foam concentrate from entering ground water, surface water or storm drains. Small quantities of foam concentrate may be collected on absorbents which can then be disposed of. Disposal should be made in accordance with local, state and federal regulations. EPA requires high temperature incineration at a minimum of 1000°C with a minimum residence time of 2 seconds for analogous compounds under Significant New Use Rules.

# Foam/Foam Solution

Prevent foam/foam solution from entering ground water, surface water or storm drains. Small quantities of foam solution may be collected on absorbents which can then be disposed of. Disposal should be made in accordance with local, state and federal regulations. EPA requires high temperature incineration at a minimum of 1000°C with a minimum residence time of 2 seconds for analogous compounds under Significant New Use Rules.

<u>NOTE:</u> Please consult National Foam for additional information regarding the disposal of foam concentrates and foam solutions or visit <u>http://nationalfoam.com/use-discharge-and-disposal-of-firefighting-foam-products/</u>

# 14. TRANSPORT INFORMATION

#### Shipping Information Shipping Description National Motor Freight Code

Fire Extinguisher Charges or Compounds N.O.I., Class 70 69160 Sub 0

This information is not intended to convey all transportation classifications that may apply to this product. Classifications may vary by container volume and by regional regulations. It is the responsibility of the transporting organization to follow all applicable laws, regulations and rules when transporting this material.

#### 15. **REGULATORY INFORMATION**

#### United States TSCA Inventory

All components of this product have been verified for compliance with the inventory listing requirements of the US Toxic Substance Control Act (TSCA) Chemical Substance Inventory. Although this product does not specifically contain a chemical regulated under EPA Significant New Use Rule for restriction of use as a firefighting foam that requires disposal by incineration at a minimum of 1000°C with a minimum residence time of 2 seconds, it contains a similar analogous compound.

#### Canada DSL Inventory

All ingredients in this product have been verified for listing on the Domestic Substance List (DSL) or the Non-Domestic Substance List (NDSL).

#### SARA Title III Sect. 311/312 Categorization

Eye irritation - Skin irritation

#### SARA Title III Sect. 313

This product does not contain any chemicals that are listed in Section 313 at or above de minimis concentrations.

#### California Proposition 65

**WARNING:** This product can expose you to diethanolamine, which is known to the State of California to cause cancer, and perfluorooctanoic acid which is known to the State of California to cause birth defects or other reproductive harm. For more information go to <u>www.p65warnings.ca.gov/</u>

### **Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA)** None

#### 16. OTHER INFORMATION

#### **NFPA Ratings**

NFPA Code for Health - 1 NFPA Code for Flammability - 0 NFPA Code for Reactivity - 0 NFPA Code for Special Hazards - None

#### Legend
